

Please find an additional letter sent by the California State Grange's attorney in response to baseless threats to another Grange made by the McFarland Group (or the "California State Guild" as it is now calling itself) in the last 24 hours. Again, if any members are threatened in any way by the McFarland Group, please let me know. The McFarland Group, California State Guild (CSG) or California State Guild United is not a Grange and has no authority over any Subordinate or Pomona Grange. The California State Grange can and will help if you or your Grange is threatened by the McFarland Group.
